Disability Standards:
Bowral High School recognises the goals set out in the Disability Standards for Education (2005) for students with disabilities and complex learning needs. These include:

- enrolment, parent choice
- access and participation
- curriculum development, accreditation & delivery
- student support services
- elimination of harassment and victimisation

Furthermore, we are aware that:

- The Standards require schools to treat students with disabilities on the same basis as students without disability.
- The Standards include obligations for making reasonable adjustments to the student’s learning program and/or learning environment.
- Parents and where appropriate students with disability must be consulted on the personal adjustments that will be provided.

Students with additional learning needs are included in whole school activities, both on and off school grounds.

Students are encouraged to participate in mainstream electives.
